

# Band Saw Safety Rules

Wear eye and ear protection

Set blade guard  $\frac{1}{4}$  inch above material

Keep fingers at least 3 inches from blade

Do not place your hands directly in line with the blade.

Do not stand on the right side of the band saw.

Turn off the power before backing out of a curved cut.

Use relief cuts for curves

Do not reach around a moving saw blade.

Shut off power or use a piece of scrap material at least ten inches long to remove scrap stock away from the blade
